SC to SC Fiber Patch Cables

Network Cables

Cables To Go offers a high-quality fiber optic patch cable designed with SC to SC termination, and is perfect for Ethernet, multimedia, or communication applications. The SC connector features a push-pull locking system. The patented Injection Molding Process gives each connection greater durability in resisting pulls, strains and impacts from cabling installs. Each cable is 100% optically inspected and tested for insertion loss before you receive it. The pull-proof jacket design surrounds the popular 62.5/125 multimode fiber.

Specifications

- Connector: SC to SC
- Fiber Size: 62.5/125 micron
- Type: Multimode; Duplex
- Features:
  - SC- Push-pull locking system
  - 100% optically inspected and tested for insertion loss
  - Molded form construction
  - Immune to electrical interference
- Application: Gigabit Ethernet, FDDI, Multimedia, ATM, or any application that requires high-speed data transfer
- Certification: UL Listed; CSA
- Lifetime Warranty
